

COMPANY PROFILE

WELCOME TO JEREMIAS GROUP

Jeremias has more than 50 years of experience in the development and production of exhaust and chimney solutions. Headquartered in Wassertrüdingen, Bavaria, Jeremias is one of the world's leading manufacturers of stainless steel, steel, and plastic flue, exhaust, and chimney systems, covering applications in residential, commercial, and industrial sectors.

As a family-owned company, Jeremias manufactures at sites across Europe and North America and is represented in more than 60 countries worldwide.

The largest product range on the market with more than 100 CE- and UL-certified systems, excellent customer service, a high rate of innovation, and unmatched flexibility make Jeremias the most dynamic company in the chimney industry, meeting the highest quality standards.

FROM A FAMILY BUSINESS TO A GLOBAL PLAYER

The story of Jeremias began in 1970, when master chimney sweep Walter Engelhardt noticed a growing number of chimneys in need of renovation. Together with his partner Johann Melzner, he founded a company specializing in chimney refurbishment.

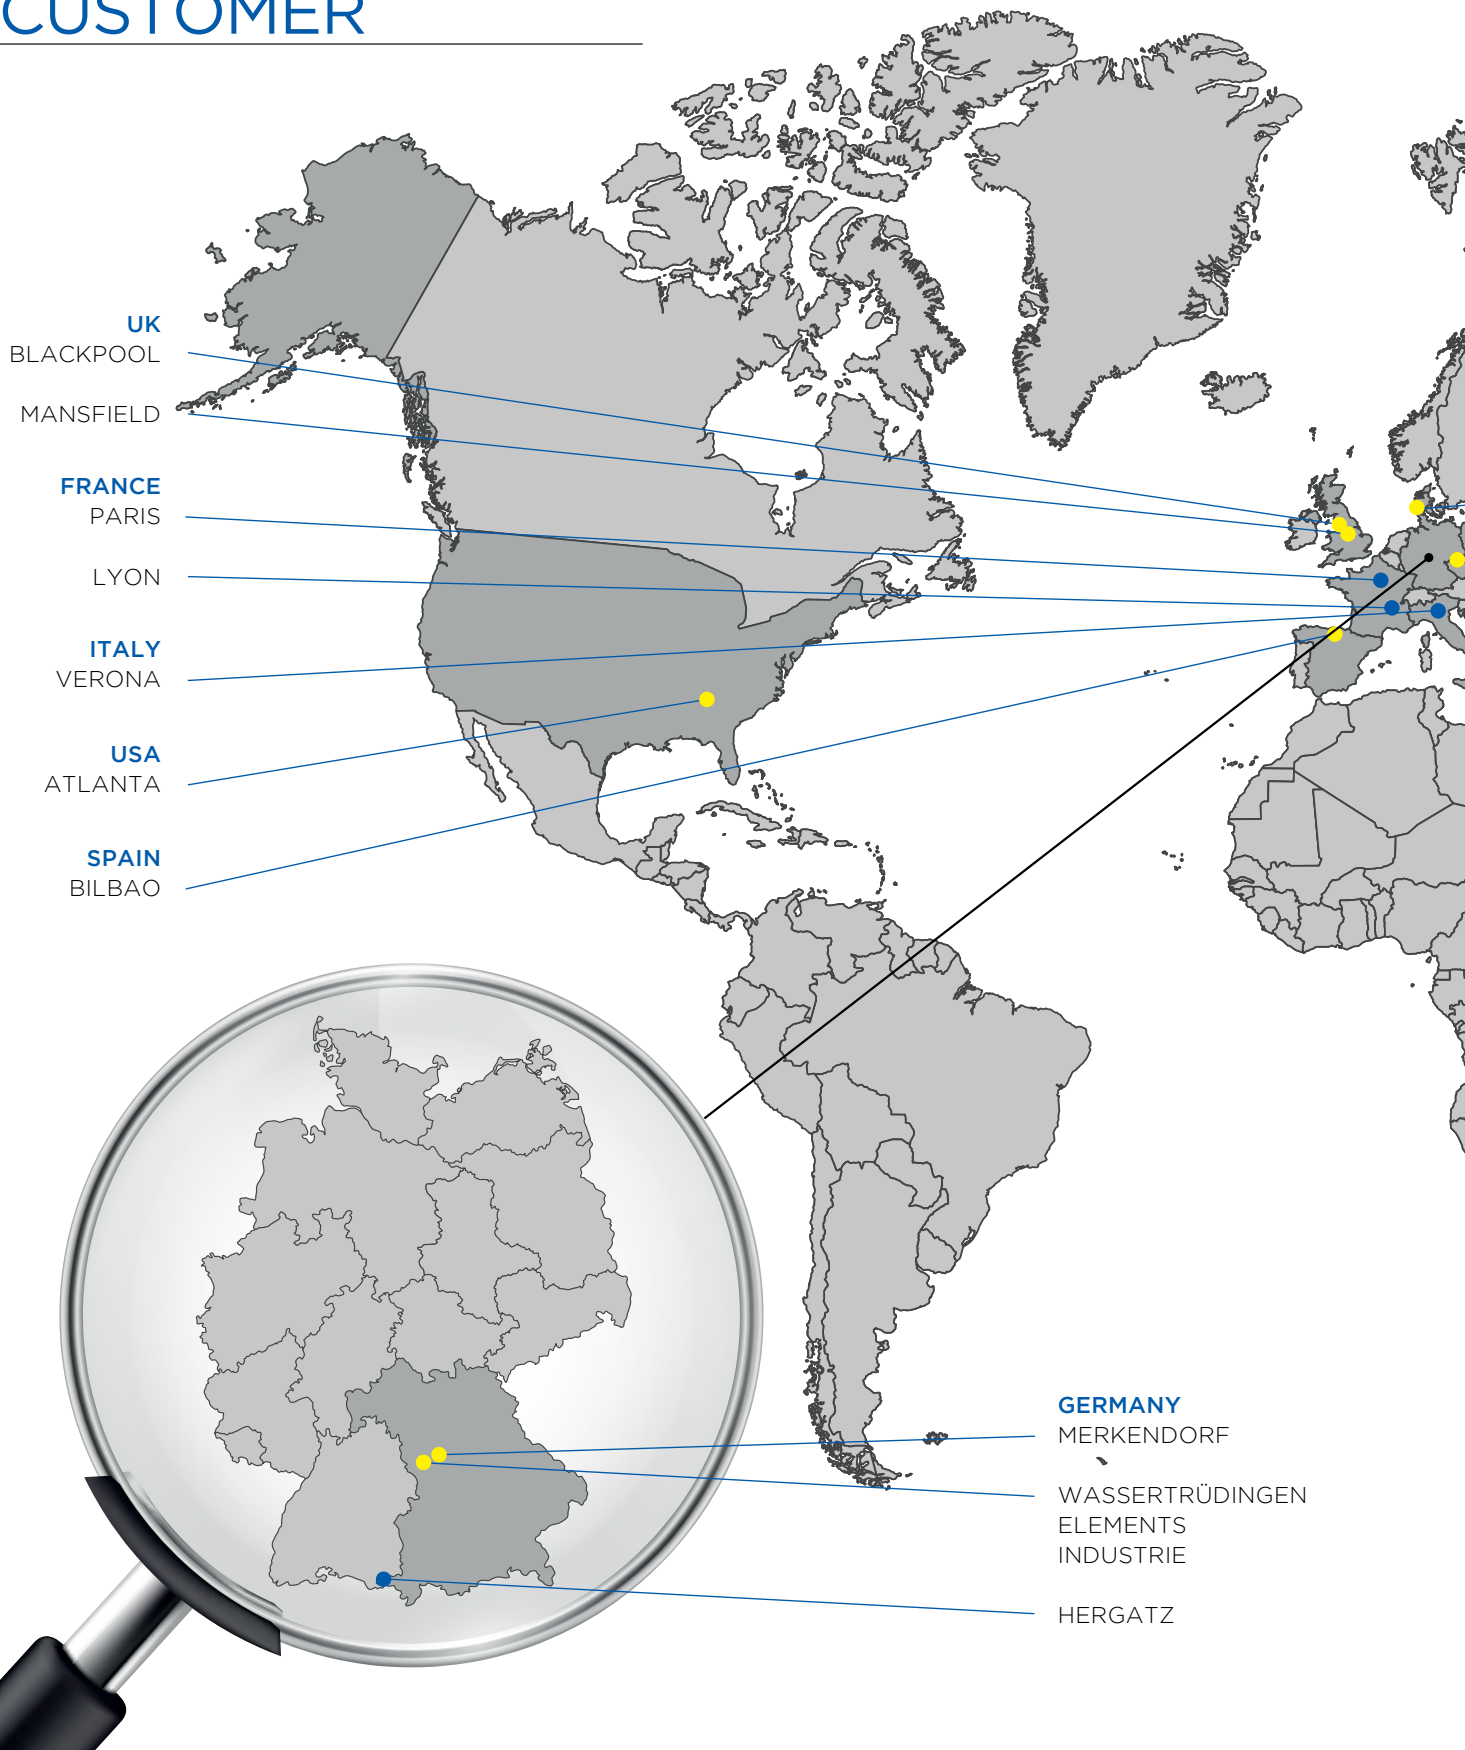

Building on his father's idea, Stefan Engelhardt began producing the required stainless steel flue pipes himself with the founding of Jeremias GmbH in 1984. This laid the foundation for rapid company growth and the successful expansion of business areas and sales regions.

Today, Jeremias is one of the world's leading manufacturers of chimney and exhaust systems and continues to actively strengthen its market position as a customer-oriented company offering innovative and high-quality product solutions.

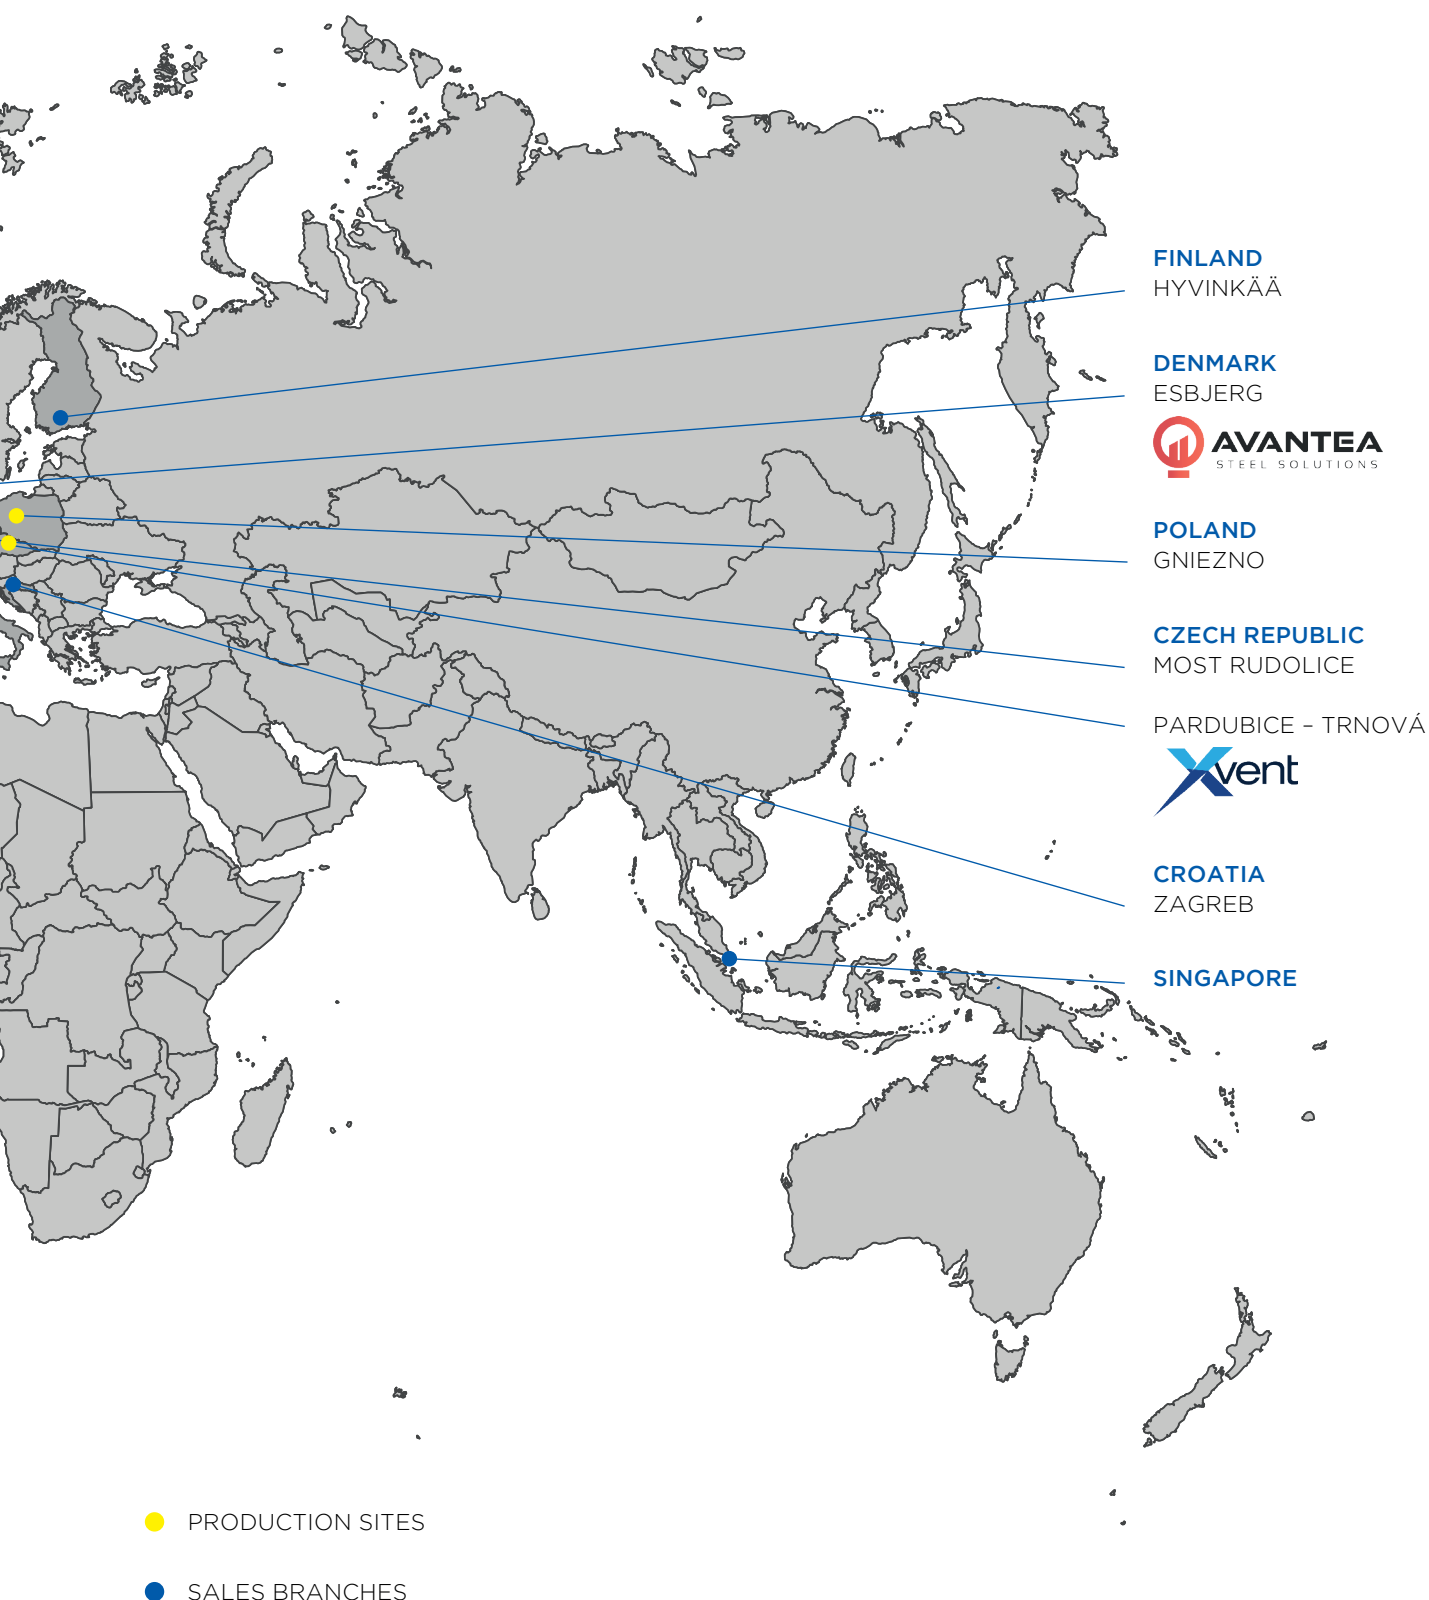

GLOBAL PRESENCE AND PROXIMITY TO CUSTOMER

Since its founding, Jeremias has been characterized by a strong and cautious approach to expansion. With production sites around the world, sales offices, and numerous national and international partners, we are able to provide our customers with optimal service and continuous support, regardless of location. Thousands of projects completed worldwide speak for themselves: we are always there for you, wherever you are!

OUR OFFER

PRIVATE SECTOR

COMMERCIAL SECTOR

INDUSTRIAL SECTOR

A home thrives on warmth and comfort, and this is exactly what Jeremias creates with innovative solutions for fireplaces and exhaust systems. Whether in single-family homes, apartment buildings, or modern residential complexes, we help you to design the heart of the living space. Our focus is on contemporary, aesthetic, and efficient solutions that integrate harmoniously into any living concept. From the installation of modern fireplace and stove systems to the professional refurbishment of existing installations, we offer customized solutions that meet the highest technical standards. With our many years of experience and commitment to quality, we provide safe and energy-efficient solutions that increase living comfort and maintain the long-term value of the property.

Whether it is a stadium, cruise ship, hotel, data center, or commercial kitchen, Jeremias provides the right solution wherever reliable exhaust and ventilation technology is required. Our extensive portfolio meets the needs of a wide range of industries, from combined heat and power plants and emergency generators to ventilation and extraction systems for the most demanding applications. We develop customized, energy-efficient, and durable systems that are precisely tailored to your specific requirements. We place particular emphasis on sustainability, safety, and smooth operation to minimize downtime and reduce operating costs. With our expertise, innovative technologies, and a strong focus on continuous development, we are your ideal partner for future-proof commercial solutions.

Decades of experience and international expertise make us one of the leading manufacturers of steel chimneys and industrial exhaust systems. From planning and design to production, installation, and commissioning, we support your project as a reliable full-service provider. Each industrial chimney is custom-made in close collaboration with our clients to achieve the perfect project solution. Our goal is to transform complex challenges into economical, high-performance, and durable solutions. In addition to implementing new systems, we also provide monitoring, maintenance, and modernization of existing installations to ensure their long-term efficiency and service life.

MODULAR CHIMNEYS

Modular chimneys offer an ideal solution for a wide range of applications due to their simple and flexible installation. They are perfect for chimney refurbishment, retrofitting a fireplace stove, or new construction projects. A variety of designs and diameters allow optimal adaptation to the specific requirements of each heating appliance, extending far beyond the scope of private residential buildings.

VENTILATION DEVICES

ekoair
by jeremias

Modern, well-insulated buildings often have insufficient air exchange, which can lead to moisture problems, elevated CO₂ levels, and the accumulation of pollutants. Controlled ventilation is essential to prevent mold growth and improve air quality. Energy-efficient ventilation systems provide a constant supply of fresh air, utilize heat recovery, and reduce heating energy requirements, energy costs, and CO₂ emissions. Our systems are ideal for passive and low-energy houses as well as for schools, offices, and hotels to ensure a healthy indoor climate.

DECENTRALIZED VENTILATION

Smart 3-in-1 solutions for heating, cooling, and ventilation replace conventional radiators while ensuring a consistent temperature through energy-efficient heat recovery. In addition, the devices can be connected to central cooling sources for enhanced comfort. Intelligent sensors monitor indoor air quality, automatically adjusting airflow to create a healthy indoor climate. Ideal for schools, hotels, and offices!

CENTRALIZED VENTILATION

Energy-efficient ventilation units for residential and commercial buildings provide continuous air exchange to improve indoor air quality and prevent mold growth. By recovering heat from exhaust air, they save energy, while smart bypass solutions ensure the supply of fresh air during cool summer nights. Available in various sizes and configurations to suit different applications.

EXPECT ONLY THE BEST FROM US!

+ 1

OUTSTANDING QUALITY

ISO9001-certified company with a quality management system for continuous product, process, and operational optimization. In-house test benches and externally monitored production controls ensure consistently high quality.

+ 2

25-YEAR WARRANTY

We offer a 25-year warranty on the corrosion resistance of our high-quality stainless steel products. Precise, continuous weld seams guarantee maximum durability.

+ 3

EASY INSTALLATION

The Jeremias element chimney system's push-fit connection ensures easy, secure installation without heavy equipment.

+ 4

NO THERMAL BRIDGES

Full insulation with high-quality, rigid mineral wool prevents thermal bridges. Fire-safe installation with minimal clearance to combustible materials is possible.

+ 5

LIGHTWEIGHT DESIGN

Durable lightweight materials simplify transport and enable easy installation without heavy brackets or lifting equipment.

+ 6

PROJECT PLANNING

Our experts collaborate with you to develop the ideal chimney solution for your project, making even the most demanding projects a complete success.

⁺
7

WIDE PRODUCT RANGE

The largest selection of standard components for exhaust systems, chimneys, and accessories.

⁺
8

FIRE PROTECTION CLASSES

Certified systems according to BS, CE, and UL standards. Multiple fire protection classes available, ideal for separating individual fire zones.

⁺
9

CERTIFICATIONS

In addition to mandatory norms and certifications, our chimneys and exhaust systems meet specific national and application-specific approvals.

⁺
10

EXCELLENT SERVICE

As a trusted partner, we set industry-leading standards with expert advice, exceptional flexibility, and a passion for meeting even the most complex individual requirements.

⁺
11

MORE INNOVATION

As a technology leader, we continuously develop innovative product additions and solutions for new applications.

A FAIR AND RELIABLE PARTNER

OUR CUSTOMERS

Our long-standing success is based on a company philosophy shaped by traditions and values. Customer focus is always our top priority. Our customers can rely on professional support, many years of experience, and expert advice. As an owner-managed family business, we are a down-to-earth and reliable partner. Our relationships with our business partners often date back decades and are characterized by constructive and fair cooperation.

OUR EMPLOYEES

The extraordinary achievements of our employees are a key factor in Jeremias' success. We never view our work as routine, but strive to achieve the optimal solution for our customers through expertise and personal commitment. We rely on open and trusting communication with flat hierarchies. We offer excellent development opportunities to capable, motivated employees who see themselves as part of a powerful team.

OUR VISION

We want to enable people worldwide to operate modern energy and heating systems with our products independently and individually.

OUR MISSION

As a globally expanding company, we stand for continuity, flexibility and quality. With our unique product range, we offer high-quality and innovative solutions in the field of heating and exhaust gas technology for private and industrial applications. We recognize the value of people within the company and communicate openly and honestly. We see our customers as part of the company and address their specific requirements in order to achieve the goal of sustainable mutual success. We consider the careful selection of our suppliers and our partnership-based relationships with them to be another important building block.

VALUES

RELIABILITY

We take responsibility for our own tasks, stand by our work with a clear conscience, and keep our promises.

CONTINUITY

We continuously review and evaluate our products, processes and risks for optimization potential and take advantage of our opportunities to improve them sustainably.

GROWTH

Growth is part of our development process. We grow as a company, and each individual employee grows in terms of their personality and their tasks.

COMPETENCE

We offer our customers professional advice based on our expertise and passion.

SUSTAINABILITY

We act consciously and maintain long-term, respectful relationships with employees, partners, and the environment.

ECONOMY

We think and act entrepreneurially. Profitability is the basis of our future viability. With lean structures and processes as well as short decision-making paths, we keep costs as low as possible.

TEAMWORK

We identify with what we do. We work together with commitment and focus. We are creative. We can rely on each other. We are Jeremias!

ESTEEM

People are at the heart of everything we do, which is why we treat our colleagues and partners with appreciation and respect.
